
This list covers our live cassette tapes spanning 1969-1994 (we also have a couple of dozen Phish and related tapes spanning 1997-2001 which are not listed here). I am actively working on digitizing the whole collection, and have a separate list of live digital music at www.tasksavvy.com/ric. [CD] indicates that the tape has been converted to audio CD format, and [MP3] indicates that it has been converted to MP3 format.

The rating system is highly subjective; basically, how much we enjoy the tape. This includes the quality of the performance itself, as well as the quality of the recording. Ratings range from one to five, with five meaning outstanding. Tapes for which I have the master are indicated by an 'm' attached to the rating.
